Professional Summary

Passionate and intelligent Full-Stack Web Developer with 2 years of hands-on experience in developing and managing side projects. Proficient in HTML, CSS, JavaScript, PHP, and Java, with expertise in Object-Oriented Programming (OOP). Adept at utilizing various tools and databases, including JSON, XML, .INI files, MySQL, SQLite, and Postgres. Known for fast development, efficient coding, and strong debugging skills.

Technical Skills

Languages: HTML, CSS, JavaScript, PHP, Java

Databases: MySQL, SQLite, Postgres

Data Formats: JSON, XML, .INI

Paradigms: Object-Oriented Programming (OOP) and Functional Programming

Project Experience

Personal Portfolio Website: <https://henen.dev>

- - Developed a personal portfolio website to showcase skills, projects, and achievements.
- - Designed and implemented responsive user interfaces using HTML, CSS, and JavaScript.
- - Utilized PHP for server-side logic and integrated MySQL for data storage.
- - Incorporated JSON for data exchange and ensured a seamless user experience.

Online Task Manager

- - Created an online task manager application to manage personal tasks and deadlines.
- - Implemented dynamic features using JavaScript and utilized local storage for data persistence.
- - Designed an intuitive user interface with HTML and CSS.
- - Conducted thorough testing and debugging to ensure a smooth user experience.

Projects

Most of my projects can be found on my portfolio [<https://henen.dev>]

Certifications

Self-Taught Programmer (ongoing)

- Continuous learning and practical application of programming skills through self-directed study and project development.

Additional Skills

- - Fast and efficient coding
- - Strong problem-solving and debugging skills
- - Independent project management
- - Continuous learning and adaptation to new technologies
